Rosanne Albright  
City of Phoenix  |  Brownfield Project Manager  
Ms. Albright has 14 years of experience with the City of Phoenix managing the Brownfields Land Recycling Program, a $4 million municipally funded program. She is responsible for overseeing and distributing grant funds, managing projects, providing technical assistance, and coordinating with other city departments, government agencies and the public. She also prepares and manages numerous EPA brownfields grants, including area wide planning, jobs training, assessment and revolving loan funds.

Ms. Albright is Chair of the Phoenix Green Team Marketing & Education Subcommittee, initiating several sustainability literacy programs and events for employees, business, and residents. She is a member of the Arizona State University Sustainable Cities Network and also serves as a mentor to other municipal brownfields programs nationwide through the International City/County Management Association’s Brownfields Peer Exchange program.

Prior to joining the City of Phoenix, she worked for environmental consulting firms in Arizona and New Mexico managing local and regional operations.

Kaye Bender  
Public Health Accreditation Board  |  Executive Director  
Kaye Bender, PhD, RN, FAAN, is the President and CEO of the Public Health Accreditation Board (PHAB), a position she has held since 2009. PHAB is the national accrediting body for state, local, tribal and territorial health departments in the United States.

Prior to PHAB, she worked with local and state public health practices in the Mississippi State Department of Health, as the Deputy State Health Officer. Ms. Bender also served as Dean of the University of Mississippi Medical School of Nursing and Associate Vice Chancellor for Nursing.

Ms. Bender sits on the National Board of Public Health Examiners, is an active member of the American Public Health Association, and is a fellow in the American Academy of Nursing, chairing the Fellow Selection Committee.

She has written several publications related to governmental public health systems and received a number of awards and recognitions, both in nursing and in public health.

Jonathan Brewer  
Carbon Solutions America, Inc  |  Technical Director

Cal Broomhead  
City of San Francisco  |  Energy Program Manager
Emily Costello  
Delaware Valley Regional Planning Commission | Senior Planner/Project Manager

Emily Costello, AICP, has over ten years of urban planning experience, including five years as a private consultant for an international architecture firm. She is currently Senior Planner in the Office of Smart Growth at the Delaware Valley Regional Planning Commission (DVRPC), the regional metropolitan planning organization for a nine-county, bi-state area.

On a day-to-day basis, Ms. Costello works with municipalities to help them responsibly plan for growth by directing new development to existing centers or transit accessible places, preserving farmland and open space, and considering future infrastructure needs. She works to educate municipal leaders and staff about current best practices and policies on a wide variety of issues, including parking management, progressive zoning and form-based codes, and redevelopment.

She has authored multiple publications about legal tools available through the New Jersey MLUL and the Pennsylvania MPC for guiding development and preserving open space.

Roy DeWitt  
City of Davenport | Interim Assisted Housing Manager

Patrice Frey  
National Main Street Center | President and CEO

Patrice Frey is President and CEO of the National Main Street Center, a subsidiary of the National Trust for Historic Preservation, where she directs the Center’s work offering technical assistance, research, advocacy, and education for a network of over 1,100 communities. Over the past 30 years, the Center has fostered renewal in more than 2,000 older commercial districts.

Ms. Frey began her position in May 2013. Prior, she served as the Director of Sustainability at the National Trust, overseeing efforts to promote the reuse of older and historic buildings. She has also worked in community development and urban research for the City of Goleta (CA) and the Brookings Institution’s Center on Urban and Metropolitan Policy.

Ms. Frey received her master’s degree in preservation planning from the University of Pennsylvania, where she also obtained a real estate certificate. She holds a bachelor’s degree in politics and international relations from Scripps College.

Bob Goff  
City of Chandler | Utility Analyst

Robert Goff has worked for the City of Chandler’s Municipal Utilities Department since 1998; his duties are focused on hydraulic modeling, reclaimed water, energy management, and sustainability.

He serves on the Steering Committee of the ASU Sustainable Cities Network and is the chair of their Best Management Practices Committee.

Mr. Goff participated in the original Natural Systems Technical Advisory Committee for STAR and coordinated Chandler’s STAR Application, achieving a 3-STAR Community rating in April of 2014.
Prior to joining the City of Chandler, Mr. Goff was a gold exploration geologist in Alaska. He also worked with the Alaska Department of Environmental Conservation for eight years.

Mr. Goff holds a B.S. in Geology from the University of Wyoming, a M.S. in Geology from the University of Alaska – Fairbanks, and a M.P.A. from Arizona State University. He is a Registered Professional Geologist in Arizona.

Rebecca Kihslenger  Environmental Law Institute | Science & Policy Analyst

Dr. Rebecca Kihslenger is a Science and Policy Analyst and Director of the Wetlands Program at the Environmental Law Institute (ELI). She directs ELI’s work on climate adaptation and community resilience, naturally green planning, and wetlands issues.

She has led projects and written on opportunities for wildlife conservation in natural hazard areas, nature-friendly land use planning, the ecological success of wetland compensatory mitigation, and local and state wetland protection programs. She is currently working with partners in the Upper Mississippi River Basin to bring together hazard mitigation planners, emergency managers, and wetland and wildlife managers to identify opportunities to collaborate on projects that yield both flood hazard mitigation and habitat conservation benefits.

Dr. Kihslenger earned a PhD in Animal Behavior from University of California, Davis and a BS in marine science from the University of South Carolina, Honors College.

Kim Lundgren  Sustainability Consultant

Kim Lundgren, ENV SP, has over 17 years of professional experience, the last 13 of which have involved designing, securing funding for, and implementing sustainability programs focused on climate change adaptation and mitigation. Kim promotes a comprehensive approach to sustainability and encourages deep engagement with key stakeholders.

Previously, Ms. Lundgren was the Director of Sustainability at Vanasse Hangen Brustlin and the U.S. Services Director at ICLEI- Local Governments for Sustainability USA. In both positions, she secured millions of dollars to build new teams focused on delivering energy and sustainability programs to hundreds of local governments throughout the country. Ms. Lundgren was also one of the first municipal sustainability directors in the Commonwealth of Massachusetts and developed the first municipal climate action plan in Massachusetts.

Ms. Lundgren holds a B.S. in Environmental Science from the University of Massachusetts-Amherst and a M.A. in Urban and Environmental Policy and Planning from Tufts University.

<th>Carrie Makarewicz</th>
<th>CU-Denver</th>
<th>Researcher</th>
</tr>
</thead>
</table>
| Carrie Makarewicz is an assistant professor in the Department of Planning & Design in the College of Architecture and Planning at the University of Colorado Denver. Her research is on community and economic development, and the consequences for human development and well-being. Current and past studies include the impact of urban systems on parent engagement and school quality; strategies to include equity in transit planning and nearby developments; estimating transportation costs for households; national policy on surface, rail and air connectivity; business location decisions; long term household recovery from disasters; and grassroots sustainability programs.

She has worked as a practicing planner and researcher in various organizations in Chicago, including the City of Chicago and the Center for Neighborhood Technology.

Ms. Makarewicz holds a B.B.A. from the University of Michigan, Ann Arbor, a M.U.P.P. from the University of Illinois-Chicago, and a Ph.D. in City and Regional Planning from the University of California, Berkeley. |

<table>
<thead>
<tr>
<th>Kevin Nelson</th>
<th>US EPA</th>
<th>Senior Policy Analyst</th>
</tr>
</thead>
</table>
| Mr. Nelson is a senior policy analyst for the U. S. Environmental Protection Agency's Office of Sustainable Communities. The Office focuses on smart growth issues of local, regional and national significance. To accomplish this, the EPA collaborates with a network of environmental, land use, transportation, open space, design and community-based organizations to highlight best practices and extol the environmental benefits of smart growth development.

Mr. Nelson focuses removing barriers to smart growth implementation. This is primarily accomplished through managing the Building Blocks for Sustainable Communities Program. This program works to provide communities with strategies for smart growth implementation through short-term, targeted technical assistance. Also, he coordinates efforts to train EPA staff and external technical assistance providers to leverage opportunities to invest in core sustainability programs. |

| Leslie Oberholtzer  | Coda Metrics | Principal, Director of Planning |

| Curt Paddock  | Will County (IL) | Director |

| Andre Pettigrew  | Clean Energy Solutions | Executive Director |

Denise Quarles | City of Atlanta | Sustainability Director

As Director of the Mayor’s Office of Sustainability, Denise Quarles works collaboratively with City Council, businesses, and non-profits to foster a concerted effort to help Atlanta become a top-tier city for sustainability, a goal set by Mayor Kasim Reed. In addition to instituting energy and water reduction strategies in city facilities, Ms. Quarles works to ensure that the long term goals set forth in the City’s Power to Change sustainability plan are complementary to the actions of organizations that help to shape the city’s robust environmental community.

Before joining the city, Quarles served for four years as VP of Environmental Affairs and Director of Business Development for Southwire, a manufacturer of electric wiring and cabling. Prior to that, Quarles worked for DaimlerChrysler, where she gained extensive experience in business and operations management. She is a member of the EarthShare Georgia Board of Directors and serves on the Metro Atlanta Chamber Environmental Policy and Sustainability Committee.

Denise holds a MBA from the University of Detroit as well as a BS in Chemical Engineering from Wayne State University.

Cindy Steinhauser | City of Dubuque | Assistant City Manager

Mickey Walker | Yarmouth, MA | Fire Chief

Michael A. Walker commands the Fire Rescue Department in Yarmouth, Massachusetts. With his staff, he has developed strategic and operational plans, revised standard operating guidelines, developed collaborative efforts with the union, and instituted a successful succession management plan.

Chief Walker serves on the International Fire Chiefs Association Environmental Sustainability Committee and has lectured internationally on fire service initiatives in the area of ecology. In partnership with Cape Cod Commission, he developed a national fire service environmental vulnerability model - the first of its kind.

Prior to his work with the city, Chief Walker commanded the Pelham (NH) Fire Department, City of Fort Madison (IA) Fire Department, and was responsible for developing Hazardous Materials Teams, County Incident Command System Guidelines, and mutual aid plans.

Chief Walker graduated from Southern Illinois University with a Bachelor in Fire Science, Cum Laude, and from DeVry University Keller Graduate School of Management, with distinction. He is a Nationally Registered Paramedic, Paramedic Instructor and Preceptor. He has advanced training in Fire, EMS, Hazardous Materials and Terrorism and has conducted leadership training for the National Fire Academy. Chief Walker is a Field Staff Instructor at the Illinois Fire Service Institute at University of Illinois and Adjunct Professor at Anna Maria College, Paxton, MA.
Mr. Wells, AICP, LEED AP, is VP of Programs and Director of the Green Urbanism Program for Global Green USA, a national non-profit organization headquartered in Santa Monica. He works with cities, neighborhoods, and community development organizations across the country to further green building and sustainable development practices through technical guidance, stakeholder facilitation, and the development of innovative polices and programs.

Prior to joining Global Green Mr. Wells was a Senior Urban Design with Gruen Associates in Los Angeles, an Associate Planner with the City of Santa Monica, and an Urban Planner for the City of Malmo, Sweden.

Mr. Wells holds Bachelor’s degrees in Sociology and Environmental Studies from the University of California Santa Barbara and a Master’s of City and Regional Planning from the California Polytechnic University San Luis Obispo. He is an appointed member of the State of California Green Building Code Advisory Committee, an invited contributor to the Planetizen web site, and a lecturer at the Claremont Colleges and the UCLA Urban Planning Program.

Mr. Wells is also a 2013 Fulbright Fellow with the Royal Institute of Technology Urban Planning Program in Stockholm, a 2012 Pritzker Fellow at the UCLA Institute of the Environment and Sustainability, and co-author of the 2007 book Blueprint for Greening Affordable Housing.
